ABOUT MYSELF

I am an active, altruistic, and determined individual currently completing my Master's degree in Biomedical Engineering with a focus on Innovative Technologies in Diagnostics and Therapy. My education has equipped me with advanced skills in both technological and clinical fields, while my bold and proactive nature drives me to seek stimulating opportunities. My goal is to work in the sector of advanced diagnostic and therapeutic technologies, contributing to the improvement of health and well-being through practical and innovative solutions.

EDUCATION AND TRAINING

15/09/2015 – 21/06/2020 Manfredonia, Italy

High school graduate Liceo scientifico classico "Galileo-Galilei Moro"

During my high school years, I participated in numerous summer study trips to England and Spain. Specifically, I spent 2 to 3 weeks each year in various locations such as London, Chichester, and Valencia. These experiences significantly enhanced my ability to adapt to unforeseen situations and improved my proficiency in the local language.

Final grade 100

21/09/2020 – 29/09/2023 Cesena, Italy

Bachelor's Degree in Biomedical Engineering Alma Mater Studiorum University of Bologna

Additional activities:

- Projects utilizing Matlab and LabVIEW for Biomechanics and Biomedical Instrumentation laboratories
- Study, review, and analysis of scientific articles
- Use of Python to analyze information and data for my thesis project

Website www.unibo.it | **Field of study** Engineering, manufacturing and construction | **Final grade** 96 | **Thesis** Innovations in Neural Decoding Methods for the Evolution of Motor Brain-Computer Interfaces based on Deep Learning and Cognitive Interfaces.
